info@studiosupplier.com

The biggest difference between a classic louver door and a Modern Ventilated Panel door? Rather than a vented door with narrow style louvered slats, Modern Ventilated Panel doors feature CNC-routed slots that go through the door and sit flush with the flat panel surface. The angled slots provide necessary air flow without compromising visual privacy. And the routed design actually makes the doors easier to paint and to clean.

LIMITED  
**LIFETIME**  
WARRANTY

- **EXCELLENT PERFORMANCE**  
More than 2x airflow of other modern routed louver doors
- **VENTILATION WITH ELEVATED STYLE**  
CNC-routed slots for airflow, maintaining privacy; easier to paint and clean.
- **CLEAN LINES & MODERN LOOK**
- **DURABLE AND TEMPERATURE-RESISTANT**  
Made from MDF material, resistant to expansion, contraction, warping, cracking, and splitting. Features stile and rail dowel construction for added strength.
- **CUSTOM MACHINING & LOCKSETS**  
Manufactured in the U.S. with options for custom machining and commercial locksets.
- **IDEAL FOR VARIOUS SETTINGS**  
Suitable for single-family homes, multifamily units, and commercial spaces, meeting air flow building codes (check your local building/planning office for air flow code requirements).
- **LIMITED LIFETIME WARRANTY**  
Backed for long-lasting durability.

K-6000  
1-PANEL VENT

K-4010  
2-PANEL VENT/VENT

Stock Sizes:	
Height	6'8"
Widths	2'0", 2'4", 2'6", 2'8", and 3'0"
Thickness	1-3/8"

See reverse side for more details >

## AIRFLOW PERFORMANCE

1-PANEL - VENT DIMENSION TABLE

			Total Door Front Area	Free Air Opening	Free Air Opening to Door Size	Obstructed Air Opening to Door Size
Door Width	A	B	6/8	6/8	6/8	6/8
3/0	36"	27"	20.00 ft <sup>2</sup>	1.64 ft <sup>2</sup>	8.20%	91.80%
2/8	32"	23"	17.78 ft <sup>2</sup>	1.34 ft <sup>2</sup>	7.54%	92.46%
2/6	30"	21"	16.67 ft <sup>2</sup>	1.19 ft <sup>2</sup>	7.14%	92.86%
2/4	28"	19"	15.56 ft <sup>2</sup>	1.05 ft <sup>2</sup>	6.75%	93.25%
2/0	24"	15"	13.33 ft <sup>2</sup>	0.75 ft <sup>2</sup>	5.63%	94.37%

2-PANEL - VENT/VENT DIMENSION TABLE

			Total Door Front Area	Free Air Opening	Free Air Opening to Door Size	Obstructed Air Opening to Door Size
Door Width	A	B	6/8	6/8	6/8	6/8
3/0	36"	27"	20.00 ft <sup>2</sup>	1.35 ft <sup>2</sup>	6.75%	93.25%
2/8	32"	23"	17.78 ft <sup>2</sup>	1.11 ft <sup>2</sup>	6.24%	93.76%
2/6	30"	21"	16.67 ft <sup>2</sup>	0.98 ft <sup>2</sup>	5.88%	94.12%
2/4	28"	19"	15.56 ft <sup>2</sup>	0.86 ft <sup>2</sup>	5.53%	94.47%
2/0	24"	15"	13.33 ft <sup>2</sup>	0.62 ft <sup>2</sup>	4.65%	95.35%
